Comments and Special Instructions (also explain any "other" selections from above):

DO NOT order an appraisal on the same property from more than one appraiser! (unless you require multiple appraisals)

Note: Submission of this appraisal order form does not constitute an acceptance of the order by the appraiser. The appraiser will contact you and discuss the details of the assignment and from that point an agreement can be reached between you and the appraiser about the assignment. If the appraiser does not contact you more than likely they are having email problems so you should try to contact them by phone.
